Help

Poverty is the major challenge faced by the countries in the path of development. As of 1990, 36% i.e., 1.9 billion people lived on 1.90\$/day compared to 10% i.e., 734 million people in the year 2015 which is considered as extreme poverty. The stats shows that the poverty has reduced in the past decade but people lives of many people are still not improved.

One in four children in Saskatchewan is under poverty. This is the third highest across Canada and a major issue for the province to solve.

RCE strives to eradicate poverty around the world by studying and understanding the needs of different areas and prepare a strict strategy to make sure that the goal is met.
